April 13, 2009

TOP MIDDLE: Christopher Calvert in 2008 helped assemble a crane that put the stadium's cross trusses in place.

TOP LEFT: Workers swept the Silver Level reserved seats after they were installed in November.

TOP RIGHT: Rows of plastic seats awaited their installment in the stadium in 2008.

ABOVE: Construction workers head home after a full day of work. The last stages of work have seen more than 2,200 workers take part.

LEFT: Workers installed glass panes on the stadium in February. The panes are part of the world's largest glass retractable doors.
